# SALE OF GOVERNMENT PUBLICATIONS.

The under-mentioned Firms have been appointed sole Agents for the sale of Government Publications, including Parliamentary Reports and Papers, Acts of Parliament, Record Office Publications, &c., &c. (with the undermentioned exceptions), and all such works can be purchased from them either directly or through retail booksellers, who are entitled to a discount of 25 per cent. from the published prices:—

IN ENGLAND:—Messrs. WYMAN AND SONS, LTD., Fetter Lane, E.C.

IN SCOTLAND:—Messrs. OLIVER AND BOYD, Tweeddale Court, Edinburgh.

IN IRELAND:—Mr. E. PONSONBY, 116, Grafton Street, Dublin.

Hydrographical Works of the Admiralty are sold by Mr. J. D. PORTER, 145, Minories, E.C.

Patent Office Publications are sold at the Patent Office. (Classified Abridgments of Patent Specifications are sold also by Wyman and Sons, Ltd.)

The Publications of the ORDNANCE SURVEY and of the GEOLOGICAL SURVEY can be purchased from Agents in most of the chief towns in the United Kingdom, through any Bookseller, or from the Director-General of the Ordnance Survey, Southampton, or, in the case of Ireland, from the Superintendent, Ordnance Survey, Dublin. In addition, Small Scale Maps are, as a rule, procurable at Railway Bookstalls in England and Wales.

The Journal of the Board of Agriculture is published monthly by the Board, at 4, Whitehall Place, S.W. Prior to April, 1907, it was published by Messrs. Loughton and Co., Ltd., 3, Wellington Street, Strand, W.C. Price 4d.

The following is a list of some of the more important Parliamentary and Official Publications recently issued:—

## Statutes.—

- Public General Acts, 1908.* In separate chapters, at varying prices.  
*Local and Personal Acts, 1908.* 3d. per 4 pp.  
*Public General, Session 1907.* With Index, Tables, &c. Cloth. 3s.  
*Second Revised Edition. 1235-1880.* XVI. Vols. 7s. 6d. each.  
*Statutes in Force. Chronological Table and Index of.* 23rd Edition. To the end of the Session 7 Edward VII. (1907). 2 Vols. 10s. 6d.  
*Acts of the Parliaments of Scotland, 1424-1707. Revised Edition.* 10s.  
*Statutory Rules and Orders other than those of a Local, Personal, or Temporary Character.* Issued in 1890 to 1907. 10s. each.  
*Statutory Rules and Orders revised, in force on Dec. 31, 1903.* Vols. I. to XIII. 10s. each.  
*Statutory Rules and Orders in force on 31st December, 1906.* Index to. 10s.

VOTES AND PROCEEDINGS OF THE HOUSE OF COMMONS, as issued, 1d. per 8 pp.

MINUTES OF PROCEEDINGS OF THE HOUSE OF LORDS, as issued, 1d. per 4 pp.

HISTORICAL MANUSCRIPTS. Reports of the Royal Commissioners. In course of issue.

ROYAL COMMISSIONS. Evidence, in separate parts:—Canals; Mines; Irish Railways; Shipping Rings; Whiskey.

- [Cd. 4161, 4162.] NATIONAL GUARANTEE FOR THE WAR RISKS OF SHIPPING. Report of Committee, with Evidence, &c. 3s. 4d.  
 [Cd. 4166.] FACTORIES AND WORKSHOPS. Report, with Statistics, 1907. 7s. 11d.  
 [Cd. 4296, 4297.] AGRICULTURAL EDUCATION. DEPARTMENTAL COMMITTEE. Report, Evidence, &c. 6s.  
 [Cd. 4045, 4045-1 to X.] MINES AND QUARRIES. INSPECTORS' REPORTS, 1907. 6s. 8d.  
 [Cd. 4202, 4215, 4216, 4217, 4218, 4219, 4220, 4221.] FREELE-HEADED. Care and Control of. Royal Commission. Report. Evidence, &c. 22s.  
 [H.C. No. 213, 1908.] HOP INDUSTRY. Select Committee. Report, Evidence, &c. 5s. 4d.

# AGRICULTURAL STATISTICS, IRELAND,

1907.

## REPORT

TO THE

SECRETARY OF THE DEPARTMENT OF AGRICULTURE  
AND TECHNICAL INSTRUCTION FOR IRELAND.

SIR,

I have the honour to submit the detailed Annual Report on the Agricultural Statistics of Ireland for the year 1907. The revised figures of the acreage and yield of crops and of the numbers of the different classes of live stock have been already published in the Report on the Extent and Produce of Crops and Numbers of Live Stock.\* The present tables, while including, for convenience of reference, several of the tables previously issued, furnish in addition (1) particulars of the number and size of agricultural holdings, and of their distribution; (2) a comparative record of the changes which have taken place in the several counties during the past ten years as regards the extent and yield of the chief crops and the numbers of live stock; (3) statistics of the area of the chief kinds of bush and tree fruits; (4) returns of the number and breed of the chief classes of breeding stock; and (5), statistics of the area under woods and coppice, and of planting and felling operations.

The usual summary tables presented on pp. 2 *et seq.* show some of the chief results of the detailed tables, and also certain general and comparative statistics relating to agriculture.

The total area of Ireland was returned in the Census of 1901 as 20,345,328 statute acres. The Division of Land. inclusion of 5,397 acres of reclaimed slob in the County Wexford brings the total area to 20,350,725 statute acres. This total

\* Issued in January, 1908. [Cd. 3902.]

includes 117,185 acres under water, but excludes close on half a million acres (487,418) under the large rivers, lakes, and tideways. The following table shows the division of land in 1907 by provinces, and also for Ireland as a whole:—

TABLE showing by Provinces the Area under Crops, Hay, Pasture, Woods and Plantations, and Bog, Marsh, &c., in the year 1907:—

—	Leinster.	Munster.	Ulster.	Connnaught.	Ireland.
	Acres.	Acres.	Acres.	Acres.	Acres.
Crops, Cereals, ... ..	376,480	263,013	633,832	122,686	1,396,011
Crops, Roots and Green, ...	246,980	262,433	359,075	163,783	1,032,271
Flax, ... ..	112	85	60,414	48	60,659
Fruit, ... ..	2,535	2,436	5,523	625	11,119
Hay, 1st year's, ... ..	142,215	110,289	221,485	30,717	504,706
Hay, 2nd and 3rd year's, ...	122,163	73,344	73,900	35,081	344,488
Permanent Meadow, ... ..	347,326	608,768	321,827	276,838	1,554,761
Pasture, Rotation, under 5 years,	204,330	247,109	783,116	93,943	1,328,508
Pasture, Permanent, 5 years and over,	2,567,160	2,806,634	1,330,243	1,846,351	8,550,388
Mountain Land, grazed, ... ..	189,384	670,638	630,683	754,394	2,245,099
Woods and Plantations, ... ..	93,531	101,838	50,901	61,036	306,306
Bog and Marsh, Barren Mountain Land, Waste, &c.	673,531	775,435	749,805	861,798	2,960,572
	4,814,969	5,265,627	5,322,534	4,228,105	20,330,725

It will be seen from this table that the area under corn and green crops, flax and fruit, amounted in 1907 to 2,369,079 acres, or 11·6 per cent. of the total area, the area under hay to 2,281,318 acres, or 11·2 per cent. of the total area, and the area of rotation and permanent pasture to 9,979,196 acres, or 49·0 per cent. of the total area. If to the pasture is added the grazed mountain land the total grazed area amounted to 12,433,095 acres or 61·1 per cent. of the total area of Ireland. Woods and plantations amounted to 306,661 acres, or 1·5 per cent. of the total area, while the remaining area, 2,960,572 acres, or 14·6 per cent. of the total area, consisted of bog, barren mountain, water, roads, building lands, waste, etc. In connection with this latter figure it will be seen by reference to table 1, page 22, that the area of barren or ungrazed mountain was returned in 1907 at 541,766 acres, the area of turf bog at 973,821 acres, the area of marsh at 873,798 acres, and the area of water, roads, building land—including the area of towns and villages—waste, etc., at 1,071,187 acres.

A detailed comparison of the acreage under crops and hay in 1906 and 1907 has already been made in the Report on the Extent and Produce of Crops.\* A summary table showing the changes in the acreage of the main crops will be found on page 4 of the present report.

As regards the great changes which have taken place during the past fifty years in the areas of crops and hay, these are seen in the following table, which shows the areas respectively under corn crops, green crops and flax, and hay, in each Census year since 1851 and in the year 1907 :—

TABLE showing the Area under Corn Crops, Green Crops and Flax, and Hay in Ireland, in each of the years 1851, 1861, 1871, 1881, 1901 and 1907 :—

YEAR.					Corn Crops.	Green Crops and Flax.	Hay.	Total.	
					Acres.	Acres.	Acres.	Acres.	
1851,	...	...	...	...	3,009,462	1,513,142	1,346,403	5,868,951	
1861,	...	...	...	...	2,624,937	1,719,373	1,540,296	5,884,536	
1871,	...	...	...	...	2,124,934	1,663,399	1,829,944	5,618,137	
1881,	...	...	...	...	1,777,175	1,417,171	2,001,029	5,195,375	
1891,	...	...	...	...	1,492,763	1,256,989	2,039,529	4,818,281	
1901,	...	...	...	...	1,317,374	1,134,835	2,178,092	4,631,061	
1907,	...	...	...	...	1,294,991	1,062,639	2,381,318	4,638,948	
					Decrease.	Decrease.	Increase.	Decrease.	
1907 compared with 1851					Increase or Decrease.				
					1,801,410	450,503	1,681,910	1,229,068	
					Rate per cent., ...	59.2	29.8	33.0	20.6

From this table it will be seen that in each decade from 1851 to 1901 there was a rapid fall in the area of corn crops, though the prices of cereals were, on the whole, well maintained both in Great Britain and in Ireland until 1878, and the marked fall in prices did not take place until after 1884. In the case of green crops the shrinkage in the area began considerably later than in cereals, for while there was to some extent a falling away in the acreage of green crops in the latter sixties, it was not until after 1875 that the decline in their acreage became regular and heavy. While the acreage of corn and green crops has thus fallen since 1851 by 2,254,913 acres, the area of hay has increased by over 1,000,000 acres, this increase being especially marked between 1851 and 1881.

\* See footnote (\*) on page v.

It is of interest when considering these figures to have in view the changes in the same crop areas during the past ten years as shown in the following table :—

TABLE showing the Area under Corn Crops, Green Crops and Flax, and Hay in Ireland in each year from 1898 to 1907 inclusive :—

YEAR.					Corn Crops.	Green Crops, including Flax.	Hay.	Total.
					Acres.	Acres.	Acres.	Acres.
1898,	...	...	...	...	1,390,954	1,138,426	2,174,470	4,704,850
1899,	...	...	...	...	1,371,608	1,137,080	2,128,967	4,637,655
1900,	...	...	...	...	1,367,189	1,145,828	2,165,715	4,678,732
1901,	...	...	...	...	1,317,674	1,134,885	2,178,592	4,631,151
1902,	...	...	...	...	1,306,568	1,120,135	2,168,464	4,595,167
1903,	...	...	...	...	1,303,845	1,104,468	2,224,165	4,632,478
1904,	...	...	...	...	1,278,129	1,094,376	2,260,160	4,632,665
1905,	...	...	...	...	1,271,180	1,090,531	2,264,506	4,626,217
1906,	...	...	...	...	1,209,343	1,038,885	2,330,016	4,578,244
1907,	...	...	...	...	1,294,891	1,062,626	2,281,318	4,638,835
					Decrease.	Decrease.	Increase.	Decrease.
1907 compared with 1898					Increase or Decrease.	95,963	76,707	106,848
					Rate per cent. ...	6·9	6·7	4·9
								1·4

From this table it will be seen that the fall in the area of corn crops has amounted to, in the ten years 1898-1907, to 95,963 acres, or 6·9 per cent. of the total area, while the decrease in green crops, including flax, amounted to 76,697 acres, or 6·7 per cent. Meanwhile the area under hay has increased by 106,848 acres, or 4·9 per cent.

The shrinkage in the area of crops during the past fifty years has been very marked in all four provinces, but it is of interest to compare the changes in the extent of the corn, green crops and hay acreage at different periods respectively in Leinster, Munster, Ulster, and Connaught.

The following summaries show the crop acreage by provinces for the Census years since 1851 and for the year 1907 :—

TABLE showing the Area under Corn Crops, Green Crops and Flax, and Hay in the Province of **Leinster** in each of the years 1851, 1861, 1871, 1881, 1891, 1901 and 1907 :—

YEAR.	Corn Crops.	Green Crops, including Flax.	Hay.	Total.
	Acres.	Acres.	Acres.	Acres.

					Rate per cent. ...	65.9	30.0	13.1

These tables show that, comparing 1907 with 1851, the decline in tillage of Corn and Green Crops has been greatest in Munster and least in Ulster.

With regard to the changes which have taken place in the areas of the several corn and grain crops the following table gives a summarised return for the several Census years from 1851, and also for the year 1907 :—

TABLE showing the Area under the various Cereal Crops in each of the years 1851, 1861, 1871, 1881, 1891, 1901, and 1907.

YEAR.	CORN CROPS.							
	Wheat.	Oats.	Barley.	Bers.	Rye.	Beans.	Pense.	Total Corn Crops.

		92½	50·9	38½	99·7	55·0	93·0	58·2

### Wheat.

The great decline in the wheat area has affected chiefly the provinces of Leinster and Munster. In 1851 the area of wheat in Leinster was 202,578 acres, in Munster 180,269 acres, in Ulster 90,188, and in Connaught 31,213 acres. In 1907 the area of wheat in Leinster was 14,261 acres, in Munster 10,495 acres, in Ulster 9,292 acres, and in Connaught 4,095 acres.

### Oats.

With regard to oats, which in 1907 represented 1,075,390 acres out of a total area of cereal crops amounting to 1,294,991 acres, the decline has been very marked in all four provinces, the percentage of decrease being greatest in Connaught. In 1851 the area under oats was in Leinster 614,535 acres, in Munster 399,534 acres, in Ulster 888,419 acres, and in Connaught 287,287 acres. In 1907 the area in Leinster was 238,463 acres, in Munster 209,414 acres, in Ulster 515,540 acres, and in Connaught 111,973. It will be seen that at the present day almost half the total acreage of oats is in Ulster.

*Barley.*

In the case of barley, the total area of 170,431 acres, including bere, has declined by 49·3 per cent. In 1851 the acreage of barley and bere in Leinster was 125,392 acres and in 1907 was 121,637 acres, the net change being small. In the other provinces the area of barley and bere has greatly declined. In 1851 the area in Munster was 137,568 acres as compared with 40,580 acres in 1907, in Ulster it was 42,924 acres in 1851 as compared with 5,528 in 1907, and in Connaught it was 30,080 acres in 1851 as compared with 2,686 in 1907.

*Rye.*

In the case of rye the decline in the acreage has taken place chiefly in Leinster and in Ulster. In Ulster in 1851 the acreage of rye was 6,942 acres as compared with 1,939 in 1907; in Leinster 3,940 acres in 1851 as compared with 1,476 acres in 1907; and in Munster 2,838 acres in 1851 as compared with 1,525 acres in 1907. In Connaught the area of rye has changed to a much less extent, being 5,977 acres in 1851 and 3,928 acres in 1907.

With regard to the changes in the area of green crops, the following table presents the figures for each Census year since 1851, and for the year 1907 :—

TABLE showing the area under the various Green and Root Crops and Flax in each of the years 1851, 1861, 1871, 1881, 1891, 1901, and 1907 :—

YEAR.	GREEN CROPS.											FLAX.

			32·0	22·3	129·6	94·8	71·7	63·7	32·1	10·0	83·4	106·2
			32·0	22·3	129·6	94·8	71·7	63·7	32·1	10·0	83·4	106·2

*Potatoes.*

The heavy decline in the area of potatoes since 1861 has taken place in all four provinces. In 1861 the area in Leinster amounted to 214,558 acres, in Munster to 291,000 acres, in Ulster to 388,417 acres, and in Connaught to 239,529 acres. In 1907 the area under potatoes was in Leinster 113,848 acres, in Munster 123,965 acres, in Ulster 242,322 acres, and in Connaught 110,863 acres. Proportionately to the total area of potatoes the decrease has been greatest in Munster and least in Ulster.

*Turnips and Mangels.*

The shrinkage in area began earlier in the case of turnips than in potatoes, but, allowing for the increase which has taken place in mangels, has been much less marked. In Leinster in 1851 the area under turnips was 104,069 acres, and under mangels 13,344 acres. In 1907 the area under turnips was 90,617 acres, and under mangels 22,133 acres. Thus the net change in the area under roots in Leinster has not been great. In Munster there has been a much more considerable shrinkage, the area under turnips in 1851 amounting to 125,493 acres, as compared with 73,051 acres in 1907. But against this decline has to be set an increase in the area of mangels from 7,470 acres in 1851 to 32,326 acres in 1907. The net change, however, in the area of roots has been greater in Munster than in either Leinster or Ulster. In Ulster the area of turnips in 1851 was 108,216 acres. In 1861 the area had fallen to 81,973 acres, but rose again to 90,479 acres in 1871. In 1907 the area amounted to 88,499 acres. The area of mangels in Ulster is small. In 1851 it was 3,761 acres, and, though greater in some preceding years, in 1907 it amounted to 5,695 acres. The net change in the area of roots in Ulster has thus been small, and this is true especially of the past 35 years. In Connaught the area under turnips has always been very limited, but notwithstanding this, the decline, proportionately to the area, has been more marked than in any other province. In 1851 there were 45,770 acres in Connaught under turnips, as compared with 22,925 acres in 1907. The area of mangels in 1851 was 1,272 acres, and in 1907 amounted to 6,946 acres.

*Cabbage.*

The increase in the area of cabbage in the period 1851-1907 has taken place in all the provinces except Ulster, but especially in Munster, where the area in 1851 was 8,063 acres, and in 1907 16,144 acres.

*Flax.*

In the case of flax, of the total area in 1851 of 140,536 acres, there were in Ulster 125,407 acres, in Leinster 4,889 acres, in Munster 5,991 acres, and in Connaught 4,249 acres. The great decline in the area has taken place in the past twenty-five years, the area returned for Ulster in 1881 being 143,873 acres. The area in 1907 was in Ulster 59,414 acres, in Leinster 112 acres, in

Munster 85 acres, and in Connaught 48 acres. In recent years the area of flax has risen and fallen, but whereas, in 1898, the area was 34,469 acres, in 1907, it reached 59,659 acres. The crop however, for its area is marked by considerable fluctuations from year to year.

### Hay.

While the area of corn and green crops has been shrinking the area of hay has been extending. The following table shows the total area under hay in each Census year since 1851, and in the year 1907 :—

Total Area under Hay, 1851-1907.

						Acrea.
1851,	...	...	...	...	...	1,246,408
1861,	...	...	...	...	...	1,546,206
1871,	...	...	...	...	...	1,829,044
1881,	...	...	...	...	...	2,001,029
1891,	...	...	...	...	...	2,059,529
1901,	...	...	...	...	...	2,178,592
1907,	...	...	...	...	...	2,281,318

With these figures may be compared the following table showing the total area of hay in each of the past ten years :—

Total Area of Hay Crop.

						Acrea.
1898,	...	...	...	...	...	2,174,470
1899,	...	...	...	...	...	2,118,907
1900,	...	...	...	...	...	2,165,715
1901,	...	...	...	...	...	2,178,592
1902,	...	...	...	...	...	2,168,464
1903,	...	...	...	...	...	2,224,165
1904,	...	...	...	...	...	2,260,160
1905,	...	...	...	...	...	2,294,506
1906,	...	...	...	...	...	2,330,016
1907,	...	...	...	...	...	2,281,318

Thus it appears that from 1851 to 1881 there was in each decade a marked increase in the area of hay, but in the twenty years which followed the increase was much smaller. After 1902, however, there has again been a very considerable extension in the area of hay.

It will be seen from the summary table on page vi. that in 1907 the area under first year's hay amounted to 512,666 acres, the area under second and third year's hay to 314,188 acres, and the area of hay in permanent meadow to 1,454,464 acres. The area of rotation hay is largest in Ulster and in Leinster, the area of hay on permanent meadow in Munster and, proportionately to the extent of rotation hay, in Connaught.

### Pasture.

The total area under corn crops, green crops, flax and hay, amounted in 1851 to 5,858,951 acres, and in 1907 to 4,638,948 acres—a decrease in the fifty-five years of 1,220,003 acres. This figure represents approximately the increase in the area of pasture in the period 1851 to 1907. There have also been changes from year to year in the grazed area of moor, marsh, and mountain land, but this marginal grazing land is always difficult to classify

and to compare, and its value is comparatively small. In 1907 the area of pasture, other than grazed mountain, amounted to 9,979,196 acres, while the area of grazed mountain land, which has been shown separately in the returns for 1907, amounted to 2,453,899 acres, the total area of pasture and rough grazing being 12,433,095 acres.

### *Fruit.*

Owing to the increasing importance of the fruit crop in Ireland returns have been obtained in the past two years differentiating as far as possible the areas under the chief separate classes of fruit. As will be readily understood, however, there is considerable difficulty in making a return of the area respectively of the several fruit crops owing to the large extent to which these are grown mixed in the one area. As far as possible the extents of the several crops have been returned separately, though, as will be seen from table 13, p. 94, the area returned as under mixed fruit represents a very considerable proportion of the total area of fruit.

The total area of fruit in 1907 was returned as 11,449 acres as compared with 10,602 in 1906, an increase of 847 acres. There were in Ulster 5,853 acres—more than half the total area under fruit in Ireland—in Leinster 2,535 acres, in Munster 2,436 acres, and in Connaught 625 acres. Much the largest extent of fruit is in County Armagh, where there were 3,619 acres in 1907; the next largest total being that of County Cork, amounting to 1,098 acres. The total area of fruit in Ireland, returned as 11,449 acres, was divided as follows:—Gooseberries, 675 acres; strawberries, 994 acres; raspberries, 374 acres; red and white currants, 159 acres; black currants, 234 acres; apples, 5,829 acres; pears, 224 acres; plums, 223 acres; damsons, 138 acres; other fruits, 129 acres; while there were 2,470 acres returned as under mixed fruits.

The decline in the area under the cereal, root, and flax crops is a feature which stands out in the history of agriculture not only in Ireland, but also in England and Wales, and to a less degree in Scotland. The following tables present summarily the changes in the areas under cereal, root, and flax crops since 1867, from which year comparative information is available:—

Ireland (area 20,350,725 acres).

The figures showing the produce of the crops which appear in tables 6 and 8 have been already dealt with at length in the Report on the Extent and Produce of the Crops in Ireland

in 1907.\*

The season of 1907 was an average year as regards yield of corn crops, but in potatoes and roots it fell considerably below the previous year, and, with the exception of mangel wurzel, below the average of the past ten years. In flax the yield was also slightly below average. The yield of hay was good in quantity, but was not up to the average in quality. Summary tables showing the total produce of the several crops, the average yield per statute acre, and a comparison of yields for the past ten years will be found on pp. 6-8 of this report.

\* See footnote (\*) on page v.

The numbers of the various classes of live stock in 1907 (Table 17., p. 98), and the changes as compared with 1906, have been already shown

**Live Stock.**

in the revised figures published in the Report on the Extent and Produce of the Crops and the Numbers of Live Stock in 1907.\*

The following table shows the changes in the total numbers of live stock which have taken place in the period 1851-1906. At the same time it will be remembered that statistics of numbers are only one index of change, and that the improvement in stock, is equally if not more important.

Years.	Horses.	Mules.	Asses.	Cattle.	Sheep.	Pigs.	Goats.	Poultry.
1851	521,706	21,606	136,961	2,967,461	2,122,125	1,064,837	225,313	7,470,604
1861	614,232	20,146	173,711	3,471,688	3,566,050	1,102,042	189,842	10,371,175
1871	535,966	19,817	180,373	3,076,372	4,833,425	1,021,423	231,373	11,717,322
1881	548,354	26,322	187,343	3,096,695	3,356,185	1,035,830	266,078	13,972,426
1891	522,310	26,660	216,908	4,468,511	4,722,613	1,307,712	336,337	15,276,128
1901	564,916	28,832	238,960	4,673,323	4,378,760	1,312,135	312,409	18,816,737
1906	604,413	30,937	243,619	4,638,921	3,714,833	1,244,152	267,312	18,976,796
1907	596,144	29,701	237,540	4,676,033	3,816,609	1,217,068	247,347	21,326,995

A table showing the number of milch cows, including heifers in calf, in Ireland since 1854 will be found

**Number of Milch Cows.**

in Table S, page 19, from which it will be seen that the number in recent years, while showing a considerable increase as compared with the period from 1880 to 1890, is still below the record of several years between 1854 and 1877. Meanwhile the total number of cattle having increased, the proportion of milch cows is considerably lower than in the earlier period.

In regard to live stock, compared with England, Scotland, and Wales, the outstanding features in Ireland are relatively the large number of cattle and the very small number of sheep. The following table shows the number of live stock in England, Wales, Scotland, and Ireland, in the year 1867 (from which

\* See footnote (\*) on page v.

date comparative statistics are available), in the Census years from 1871, and in the year 1907 :—

(a) Statistics not collected until 1829.

In connection with the statistics of cattle, it is of interest to see the changes in the numbers of live

**Exports of** stock exported from Ireland to Great  
**Live Stock.** Britain. Considerable fluctuations occur from year to year, and the exports are

shown in the following table for a period of twenty years :—

NUMBERS of Cattle, Sheep, Swine, and Horses exported from Ireland to Great Britain during the twenty years 1888-1907 :—

YEARS.	Cattle.	Sheep.	Swine.	Horses.
1888, ... ..	738,716	637,334	544,972	29,228
1889, ... ..	669,543	613,087	473,551	31,224
1890, ... ..	631,638	636,381	603,162	34,152

1894, ... ..	16.5	19.3	38.4	4.5
1895, ... ..	16.1	18.7	31.2	5.0
1896, ... ..	16.7	17.7	34.5	5.6
1897, ... ..	18.0	17.3	36.6	5.6

The inquiries made in the preceding eighteen years relative to the extent to which bee-keeping is followed in Ireland were repeated in 1907, and according to the returns received there would appear to have been an increase of 0·6 per cent. in the quantity of honey produced in 1906 as compared with the preceding year, the returns for which showed an increase of 51·5 per cent. as compared with the quantity in 1904. The quantity of honey produced, according to the returns, was 470,850 lbs.; of this 133,664 lbs. were produced in the Province of Leinster, 104,639 lbs. in Munster; 155,004 lbs. in Ulster; and 77,543 lbs. in Connaught. Of the 470,850 lbs. 362,563 lbs. were produced "in Hives having Movable Combs," and 108,287 lbs. "in other Hives." It was stated that 157,098 lbs. was "Run Honey," and 313,752 lbs. "Section Honey." The number of stocks brought through the winter of 1906-1907 amounted to 27,642, of which 17,502 were in hives having movable combs, and 10,140 in other hives. According to the returns collected, there were 3,266 lbs. of wax manufactured in 1906, of which 2,518 were from hives having movable combs, and 748 lbs. from other hives.

In connection with the statistics of bee-keeping, it should be stated that from the nature of the case there is great difficulty in obtaining returns which approach completeness. The collection, therefore, of information by local societies of bee-keepers, and their co-operation with the Department in making the returns as complete as possible is of great importance. Few countries have any satisfactory record of their production of honey, but, with co-operation and organisation among bee-keepers, the difficulties can largely be overcome.

#### FORESTRY.

Of the total area of Ireland, about 1·5 per cent. is under woods. The woods in England are 5·3 per cent., in Scotland 4·5, and in Wales 3·9 per cent. of the total areas.

Since 1851 (with the exception of the year 1852) the acreage under woods and plantations has been ascertained annually in connection with the Agricultural Statistics; but, until the year 1890, the total extent was the only information sought for, no particulars as to the kind of trees having been obtained. In that year returns giving the latter information were collected, and the results were published in a table, showing, by counties, the distribution of the various description of trees.

The following table shows the acreage returned as under woods and plantations in the year 1851, and in each year from 1853 to 1907, inclusive :—

*Acreage under Woods and Plantations.*

Year.	Statute Acres.	Year.	Statute Acres.	Year.	Statute Acres.
1851	304,966	1870	320,523	1889	321,363
1852	No Return	1871	321,509	1890	327,461
1853	305,221	1872	321,703	1891	311,554
1854	306,332	1873	323,056	1892	309,586
1855	306,476	1874	321,268	1893	307,353
1856	306,069	1875	318,665	1894	306,276
1857	313,817	1876	324,132	1895	308,928
1858	313,271	1877	329,530	1896	307,407
1859	318,574	1878	328,667	1897	307,441
1860	315,324	1879	330,846	1898	307,641
1861	316,397	1880	330,858	1899	308,495
1862	317,345	1881	328,703	1900	311,048
1863	317,134	1882	328,999	1901	308,741
1864	318,383	1883	331,345	1902	308,023
1865	322,152	1884	332,036	1903	304,662
1866	327,290	1885	329,447	1904	303,118
1867	323,420	1886	329,632	1905	301,132
1868	322,233	1887	329,363	1906	301,697
1869	321,661	1888	331,527	1907	306,661

In 1907 certain changes were introduced in the inquiries made with a view to ascertaining the area respectively under conifers and under broad-leaved trees, and likewise the area of mixed conifers and broad-leaved. The ages also of the plantations were ascertained as far as possible. A statistical summary of the information obtained is shown by provinces, counties and for all Ireland on pp. 136 *et seq.*

In 1907, of the total extent of 306,661 acres in Ireland, 298,668 acres were returned as woods, 7,462 acres as coppice or scrub, and 531 acres as nursery plantations. Out of the total area of 306,661 acres, 93,531 acres were in Leinster 101,893 acres in Munster, 59,601 acres in Ulster, and 51,636 acres in Connaught. In Munster the largest areas were in the Counties of Cork and Tipperary, where respectively 27,426 acres and 24,220 acres were returned as under woodlands. In Ulster the largest total was in County Down, where the extent of woodlands was returned in 1907 at 13,480 acres. In Connaught much the largest area was in County Galway, where the total extent was returned at 25,162 acres. The returns further show that of the total area under woods, 102,078 acres consisted of conifers, larch, spruce, fir, pine, etc., and 56,355 acres of broad-leaved trees, oak, ash, beech, sycamore, etc.; while 140,235 acres were areas of mixed conifers and broad-leaved. It should be understood, however,

that it is not easy to ascertain accurately the area of woods or to distinguish them into even the above broad classes, but special investigations made during the past year as to the extent of existing woodland areas confirm the comparative accuracy of the statistics.

A further consideration of importance is the age of the existing woodlands. According to the returns furnished it would appear that of the above 298,668 acres returned as under forest trees, 22,300 acres were from 1 to 25 years, 53,029 of from 26 to 50 years, 45,390 as from 50 to 75 years, and 74,330 over 75 years, while with regard to an area of 103,619 acres, or roughly one-third of the total area, the trees were of various ages. Inquiry was also made in 1907 as to the area under forest trees which was respectively enclosed and open, and it was ascertained that 219,893 acres were enclosed forest, while 78,775 were open woodland.

The inquiries as to planting and felling operations instituted in 1890, and continued in the **Planting and Felling**, sixteen following years were repeated in 1907. According to the returns, during the year ended 30th June, 1907, 1,012 acres were planted with trees, one acre less than the extent planted in the preceding year.

The number of trees felled, both for clearance and for thinning plantations, amounted in 1907 to 1,392,609. The area returned as cleared is 1,725 acres. It will be noticed that while, according to the Table on the preceding page, there would appear to have been an increase of 1,964 acres under woods and plantations, the area returned as planted compared with that cleared shows a net decrease of 713 acres. There is thus a discrepancy in the figures, but, as has been pointed out in previous reports, considerable difficulties exist in ascertaining the area under woods and plantations from a very large number of persons, many of whom are imperfectly acquainted with the acreage under timber on their holdings. Of the trees felled, 790,261 were used for mining purposes, which appears to have been the chief purpose to which the timber of almost all descriptions was applied. The numbers applied to the principal specified uses comprise also :—14,965 trees for railway purposes, 24,384 for paling, gates, etc., 46,076 for fuel, 27,815 for furniture and building purposes, 1,470 for carts, wagons, farm implements, etc., 480 for clog soles, 1,050 for ship and boat building, 9,070 for butter and egg, etc., boxes and packing cases, 700 for street paving, 1,050 for cooperage, and 100 for mill rollers.

#### HOLDINGS AND OCCUPIERS.

One of the questions of greatest importance in the agricultural economy of the country is the distribution of land and the extent of cultivation on the different classes of land. The

following table shows the number and size of holdings in 1907 in the four provinces and for all Ireland :—

*Number and Size of Holdings in the Year 1907.*

Size of Holdings.	Leinster.	Munster.	Ulster.	Connaught.	Ireland.
Not exceeding 1 acre, ...	28,339	26,181	21,590	7,034	83,574
Above 1 and not exceeding 5 acres.	17,466	12,365	20,308	12,029	62,038
" 5 " " 15 "	25,141	19,308	62,772	44,597	153,728
" 15 " " 30 "	21,838	24,330	53,008	35,128	135,238
" 30 " " 50 "	15,219	22,442	25,012	12,066	74,740
" 50 " " 100 "	14,336	22,879	14,824	6,290	58,029
" 100 " " 200 "	6,967	9,351	3,476	2,921	22,905
" 200 " " 500 "	2,735	2,616	1,915	1,565	7,932
Above 500 acres, ...	431	386	277	490	1,584
Total No. of Holdings, ...	132,933	130,767	203,092	124,039	690,872

With regard to holdings not exceeding one acre, the information as to the number of these is mainly of interest from a social and economic point of view. So far as the purposes of agriculture are concerned, holdings not exceeding one acre may be excluded, for, apart from the difficulty to the enumerator of determining what plots of land not exceeding one acre may be regarded as agricultural, this class is mainly composed of gardens, labourers' allotments, &c., while the total area distributed amongst the 83,574 holdings is estimated to amount to 38,653 acres. The great increase which has taken place since 1851 in the number of holdings not exceeding one acre is shown in the following table :—

*Number of holdings not exceeding one acre, 1851-1907.*

—	Leinster.	Munster.	Ulster.	Connaught.	Ireland.
1851 ...	16,017	8,488	6,960	6,273	37,738
1861, ...	14,447	9,325	9,270	3,019	41,561
1871, ...	16,844	11,172	12,729	7,703	48,448
1881 ...	17,269	11,828	14,733	7,166	50,996
1891, ...	17,896	14,922	17,026	6,984	55,828
1901, ...	25,513	22,082	19,099	6,634	74,328
1907, ...	28,339	26,181	21,590	7,034	83,574

From this statement it will be seen that, of the 83,574 holdings returned as "not exceeding" one acre, 55,040 are in Leinster and

Munster. During the past seventeen years the increase in the number of these holdings has been especially marked in Leinster and Munster. In Ulster since 1891 the numbers have risen slowly, though in 1907 there has been an increase of 989 as compared with 1906. In Connaught also, where the number of such holdings is small, and where for decades it was dwindling, there has been an increase in recent years.

Apart from these small holdings of one acre and under, the total number of holdings as shown by Census periods since 1841 is as follows :—

Total number of holdings exceeding one acre, 1841-1907.

—	Leinster.	Munster.	Ulster.	Connaught.	Ireland.
1841, ... ..	134,780	163,886	296,604	155,842	691,112
1851, ... ..	132,871	150,494	210,349	116,624	570,338
1861, ... ..	116,973	118,783	207,625	125,543	569,924
1871, ... ..	111,578	114,753	196,328	121,873	544,432
1881, ... ..	106,960	112,014	188,070	119,795	526,839
1891, ... ..	106,311	111,347	183,229	116,426	517,313
1901, ... ..	104,388	112,586	181,864	116,089	515,927
1907, ... ..	104,074	113,606	181,592	117,636	516,908

From this table it will be seen that for over fifty years the total number of holdings exceeding one acre continued to fall, at first violently, later more slowly. In the last decade this downward movement has spent itself, and the number of agricultural holdings has remained comparatively stationary. The above table, showing the changes since 1841, may be compared with the following table, which brings out the stationary character of the last decade :—

Total number of holdings exceeding one acre, 1898-1907.

—	Leinster.	Munster.	Ulster.	Connaught.	Total.
1898, ... ..	104,128	111,670	182,172	116,281	514,251
1899, ... ..	104,249	112,346	182,306	116,162	515,063
1900, ... ..	104,025	112,391	182,818	116,136	515,370
1901, ... ..	104,388	112,586	181,864	116,089	515,927
1902, ... ..	104,462	112,568	181,734	116,078	515,842
1903, ... ..	104,130	112,360	181,861	116,407	515,758
1904, ... ..	104,063	112,412	181,684	116,374	515,533
1905, ... ..	104,024	112,376	181,694	116,709	515,803
1906, ... ..	104,200	112,675	181,707	117,169	515,751
1907, ... ..	104,074	113,606	181,592	117,636	516,908

With regard to the changes which have taken place in the number of holdings in the several classes, the outstanding feature within recent years has been the increase in the number of the classes of holdings between 15 and 100 acres. In 1907 the total number of holdings between 15 and 100 acres has increased by 348 as compared with 1906. The main points as to the number and distribution of the several classes of holdings exceeding one acre may be briefly presented in the following summary:—

### *Distribution of Holdings.*

Holdings above one and under five acres, amounting in 1907 to 62,068, are comparatively evenly distributed among the four provinces. Ulster has 20,308, Leinster 17,466—a large proportion relative to its total number of holdings—Connaught and Munster respectively 12,029 and 12,265. During the past ten years the total number of these holdings has been remarkably stationary, in recent years slightly declining. The total area over one and not exceeding five acres is estimated at approximately 224,000 acres.

This is the largest in number of the several classes of holdings in Ireland, amounting in 1907 to 153,728. Regarding the number and proportion of these holdings there is a marked contrast between, on the one hand, Ulster and Connaught, and on the other hand, Leinster and Munster. In Ulster more than one-third of the total number of holdings over one acre belongs to this class, and in Connaught the proportion is still greater, whereas in Leinster such holdings amount to less than one-fourth, and in Munster to about one-sixth. The total area of the holdings “above five and not exceeding fifteen acres” is estimated at approximately 1,614,000 acres.

In 1907, holdings above fifteen and not exceeding thirty acres numbered 135,233. This class since 1851 has been in number remarkably stationary, gradually falling, and of recent years slightly increasing. As in the holdings between five and fifteen acres, so in those between fifteen and thirty acres, Ulster and Connaught have absolutely and proportionately a much larger number than Leinster or Munster. But in the present case the disparity is not so great, Ulster having 53,908 in 1907, Connaught 35,128, Munster 24,359, and Leinster 21,838. The total area of such holdings is estimated at approximately 3,028,000 acres.

It will thus be seen that in Ireland, out of a total of 516,298 holdings exceeding one acre, 351,029 are of a size not exceeding thirty acres, and comprise less than one-fourth of the total area of the country.

The total number of holdings in this class amounted to 74,799 in 1907. The change has been slight since 1851, when the number was 70,093, and the increase has occurred mainly in Ulster and Connaught, and to a much less degree in Munster. In Leinster, on the other hand, this class has tended to decrease. The numbers for the several provinces in 1907 were as follows:—Ulster, 25,012; Munster, 22,442; Leinster, 15,249; Connaught, 12,096. The total area of these holdings may be estimated approximately at 3,024,000 acres.

The total number of holdings in this class in 1907 was 58,029. Since 1851, when there were 49,940 such holdings, there has been a considerable increase, but the past decade has done little more than maintain the number reached, Munster has much the largest proportion of such holdings, viz., 22,879; Ulster, 14,624; Leinster, 14,236; Connaught, 6,290. The total area included in this class may be estimated approximately at 4,269,000 acres.

The total number of holdings in this class in 1907 was 22,905, of which 9,351 were in Munster, 6,957 in Leinster, 3,676 in Ulster, 2,921 in Connaught. In 1851 the number was 19,753, and while in the earlier decades there was a considerable increase, in recent years a slight decrease has been evident. The present area of these holdings may be estimated approximately at 3,454,000 acres.

In 1851 the number of these holdings was 7,847 (in 1861, however, the number was 8,329); in 1907 the number was 7,952. Of these there were in Leinster, 2,756; in Munster, 2,616; in Connaught, 1,565; and in Ulster, 1,015; comprising a total area which may be estimated at 2,731,000 acres.

The number of these holdings increased from 1,457 in 1851 to 1,568 in 1871, and has with slight yearly fluctuations remained comparatively stationary. In 1907 the number was 1,584. Of these there were in Connaught, 490; in Leinster, 431; in Munster, 386; and in Ulster, 277.

In general, regarding the changes in the size and distribution of the holdings in Ireland, three periods may be distinguished during the past sixty years. The first, in which change was catastrophic, had closed before the Census of 1851. The number of holdings between 1 and 15 acres in extent—amounting in 1841 to 562,235—was reduced roughly by half to 279,937 in 1851

while the number of holdings of an extent exceeding 15 acres was greatly increased. Holdings between 15 and 30 acres rose from 79,342 in 1841 to 141,311 in 1851. Holdings exceeding 30 acres rose from 48,625 in 1841 to 149,090 in 1851. The second period, extending from thirty to forty years after 1851 marked a still further decline in the number of holdings over 1 and not exceeding 15 acres, with a corresponding increase in the larger classes of holdings. In the third period, that of the past twenty years, excluding holdings not exceeding one acre, there has been a comparative absence of change. From year to year minor fluctuations, sometimes considerable, are seen, but when the view stretches over a series of years no continuous changes can as yet be discerned.

It will be observed from the study of the tables that Ulster is pre-eminently the province of small holdings. Altogether it has in 1907 only 19,592 holdings exceeding 50 acres in extent, whereas it contains 162,000 holdings of an extent above 1 and not exceeding 50 acres. Moreover, of these the greater number are between 5 and 30 acres in area. On the other hand, Munster is pre-eminently the province of holdings between 30 and 200 acres. In 1907, of its total number of holdings exceeding one acre, viz., 113,606, no less than 54,672 were of a size above 30 and not exceeding 200 acres. Further, it may be noted that among these holdings the proportion not only of those above 50 acres, but of those exceeding 100 acres in area is, when compared with the other provinces, relatively large. In Leinster there is no such predominance of small or large holdings, but every class is well represented. Leinster has, however, the largest number of holdings, exceeding 200 acres. In Connaught the most striking feature is the contrast, marked even more strongly than in Ulster, between the large number of holdings from 5 to 30 acres in extent, and the small number between 30 and 100 acres. To the former class belong more than two-thirds of the total number of holdings in Connaught exceeding one acre, whereas of holdings from 30 to 100 acres there is a much smaller proportion than in any other of the provinces. On the other hand, Connaught has the largest number of holdings "above 500 acres."

In many instances landholders occupy more than one farm, and in other cases farms extend into two

**Number of Occupiers.** or more townlands, the portion in each townland being enumerated and classified as a separate holding. With the view, therefore, of ascertaining the number of occupiers, and of classifying them according to the total extent of land held by each, each enumerator is required to furnish the name of every landholder residing in his district who has two or more farms, or whose farm extends into two or more townlands, together with the area of each portion and the locality in which it is situated. From the number of actual occupiers thus arrived at, it appears that in 1907 there were 599,872 holdings in the hands of 552,997 occupiers.

The total number of separate holdings and of occupiers in each province in the year 1907 were :—

PROVINCES.	Number of Separate Holdings.		Number of Occupiers.	
	1907.		1907.	
Leinster, .. ..	132,563		119,014	
Munster, ... ..	138,787		125,589	
Ulster, ... ..	203,092		188,963	
Connaught, ... ..	124,080		118,431	
Total, ... ..	598,522		552,007	

The following table shows the numbers of occupiers in the several provinces during the ten years 1898–1907, excluding those occupying holdings not exceeding one acre in extent.

PROVINCES	1898.	1899.	1900.	1901.	1902.	1903.	1904.	1905.	1906.	1907.
Leinster, ...	92,097	94,247	92,039	91,534	91,765	91,372	91,111	91,683	92,119	96,417
Munster, ...	100,947	100,914	101,028	101,109	100,923	101,552	101,030	101,401	102,779	106,673
Ulster, ...	170,687	170,795	170,743	168,945	168,323	168,951	168,969	169,172	168,901	167,638
Connaught, ...	106,565	106,663	109,216	105,316	106,783	103,324	100,207	100,707	100,775	111,588
IRELAND, ...	472,361	473,656	473,456	470,904	470,297	470,690	470,627	471,963	473,674	479,399

From this table it will be seen that the number of occupiers has remained comparatively stationary during the past ten years, falling to the lowest point in 1901 since when it has shown a slight increase.

In connection with the question of the number and size of agricultural holdings in Ireland, the special inquiries carried out during the past year by this Branch for the Royal Commission on Congestion show the use made of the agricultural land on each class of holdings above 5 acres, and the class of cattle carried on such holdings.

The following summary table shows the use made of the agricultural land on each class of holdings above 5 acres.

STATEMENT showing in each of six Classes of Holdings the Percentage of the Total Agricultural Land in each such Class under each Crop and under Grass.

Nature of Crop.	Above 200 Statute Acres.	Above 100 and not exceeding 200 Statute Acres.	Above 50 and not exceeding 100 Statute Acres.	Above 30 and not exceeding 50 Statute Acres.	Above 15 and not exceeding 30 Statute Acres.	Above 5 and not exceeding 15 Statute Acres.
Corn Crops, ...	33	59	84	99	109	121
Green Crops, ...	14	37	56	73	89	116
Flax, ...	00	01	03	06	07	08
HAY:						
1st Year, ...	09	24	34	39	42	44
2nd Year, ...	06	13	21	22	23	24
Permanent, ...	49	79	89	99	108	117
PASTURE:						
Under Rotation,	24	64	87	103	115	118
Permanent, ...	534	603	537	496	459	421
Mountain Graz- ing.	342	118	89	64	43	39

It was to be expected that the percentage of tillage would be greater on the small holdings than on the larger, but these figures enable the extent to which this is the case to be determined. At the same time it is of interest to note that not only is the percentage of corn and green crops higher on the holdings under 100 acres than on those above 100 acres, but that especially on the holdings under 50 acres the proportion of green crops to corn crops is much higher than it is in the case of the larger farms.

With regard to the cattle on the different classes of holdings, the following table shows the percentage of each kind of cattle on the several classes of holdings:—

STATEMENT showing in each of six Classes of Holdings the Percentage of the Total Number of each kind of Cattle, that is on each Class of Holdings, and also the Percentage that the Area in each Class of Holdings is of the Total Area.

Cattle.	Above 200 Statute Acres.	Above 100 and not exceeding 200 Statute Acres.	Above 50 and not exceeding 100 Statute Acres.	Above 30 and not exceeding 50 Statute Acres.	Above 15 and not exceeding 30 Statute Acres.	Above 5 and not exceeding 15 Statute Acres.
Bulls, ...	117	239	346	169	92	37
Milch Cows, includ- ing Heifers in Calv.	54	125	239	303	232	146
Two year old and upwards.	284	244	216	118	100	44
One year old and under two.	107	159	256	185	201	114
Under one year old.	51	126	240	206	235	146
Percentage of Total Agricultural Area.	190	176	224	162	164	89

From this table it will be seen that, taking all holdings above 5 acres statute, on those not exceeding 100 acres in extent, there were 81·9 per cent. of the milch cows, 82·9 per cent. of the cattle under one year, 73·4 per cent. of the cattle one-year old and under two years, and 47·2 per cent. of cattle two years old and upwards. The evidence of these tables is of great interest in considering the position and influence of small and medium-sized holdings on the agriculture of the country.

I have the honour to be, Sir,

Your obedient servant,

W. G. S. ADAMS,

*Superintendent of Statistics  
and Intelligence Branch.*

DEPARTMENT OF AGRICULTURE  
AND TECHNICAL INSTRUCTION FOR IRELAND,  
UPPER MERRION-STREET, DUBLIN.

7th October, 1908.

DUBLIN CASTLE,

13th October, 1908.

SIR,

I have to acknowledge the receipt of your letter of the 12th instant, forwarding, for submission to His Excellency the Lord Lieutenant, the Detailed Report on the Agricultural Statistics of Ireland for the year 1907.

I am,

Sir,

Your obedient servant,

E. O'FARRELL.

The Secretary,

Department of Agriculture and

Technical Instruction for Ireland.
